

## Hospital Visiting Hours Limited to 1 p.m. to 8 p.m.

Strict adherence to the 1 p.m. to 8 p.m. visiting hours at St. Elizabeth Hospital was announced today by Sister Mary Thomas, administrator.

She explained that in the best interest of the patients, it is necessary to enforce the hours because of the winter months' prevalence of the common cold and the flu throughout the community.

The request for a minimum number of visitors and compliance to the 1 to 8 p.m. visiting hours was made jointly by hospital officials and the medical staff.

Visiting hour and regulations for the maternity department differ from regular visiting hours because of regulations set forth by the Illinois Hospital Licensing Act.

Visitors to the maternity department are limited to two each day and children under 16 are not permitted. Visitors may not have contact with infants at any time, and the hours do not correspond with the periods during which infants are with the mothers. The hours are: 2:30 p.m. to 3:30 p.m. and 7 p.m. to 8 p.m.

### ALFRED A. BOYLE

#### A. A. Boyle, 69, Retired Laclede Officer, Dies

Alfred A. Boyle, 69, retired vice-president of operations at Laclede Steel Co., died at St. Joseph Hospital, Alton, shortly before 2 p.m. Tuesday. He resided in Alton with his wife, Anita.

Mr. Boyle joined Laclede Steel as an engineer at the Madison works in 1925 after being employed by the Corps of Engineers upon his graduation from Rolla School of Mines in 1925. He transferred in 1931 to the Alton works of the company in the mechanical department. He served as general superintendent and in 1954 was elected vice-president of operations, an office he held until his retirement June 1, 1966.

Services were held this morning in Alton.

#### Skoklo, TV Theft Cases Given to U.S. Grand Jury

The case of the theft of 14 portable color television sets from Skoklo, a St. Louis area, was given to the U.S. Grand Jury in Springfield.

Meanwhile Skoklo's suspension, ordered for seven days last week by Madison Police Chief Emmett Pazio, was extended for 30 more days to Dec. 10 Tuesday night by the board of fire and police commissioners pending the outcome of legal action.

The sets were stolen from a truck on a piggy back car the night of Oct. 30 by three boys, ages 14, 15 and 21, residing in Cloverleaf, who signed statements claiming that Skoklo sold the sets for them.

Some of the sets were sold in St. Louis and in Madison and several were reclaimed by their owners after serial numbers were obtained from the railroad.

FBI agents entered the investigation as the theft was from an interstate shipment, a federal crime. Madison county authorities withheld the filing of charges pending action by FBI agents.

#### Mrs. Thelke Painting Picked for Exhibit

Mrs. Barbara Premier Thelke, of the Chain of Rocks Motel, Rural Route 2, has had one of her oil paintings entitled, "Orange and Orange," accepted as an entry in the St. Louis Artist Guild annual art and sculpture competitive exhibition.

A public reception was held on Sunday and the exhibition will continue through Dec. 1 at the St. Louis Artist Guild, 812 Union Blvd., St. Louis.

Geared for any type artist, the showing is open to artists in St. Louis and the area in a 30-mile radius.

Judging will be done by Dennis Adrian, assistant curator of the Chicago Art Institute, with the first prize, Hearts and Flowers a \$300 award. Several prizes will be presented to other winners.

Mrs. Thelke, who has had several showings, is attending Southern Illinois University-Southwestern campus to further her education in the field of art.

#### Horseshoe Lake Park Topic for Rotary Club

An outline of the Horseshoe Lake state park project was presented to Granite City Rotary Club members during the club's Tuesday luncheon meeting at the YMCA with Warren Dentur, president, presiding.

Program chairman, Melvin Thompson introduced H. D. Karandjeff, local banker and chairman of the Horseshoe Lake development commission, who spoke briefly to explain the years of work and problems encountered in striving since 1930 to develop the lake as a recreation area.

Karandjeff noted that property values at the lake, which is privately owned, have soared to five times the amount originally considered in the 1930s.

He introduced Charles McKinney, assistant executive director of the Southwestern Illinois Metropolitan Area Plan Commission, who described the potential of the lake as a recreation center and which at the time of the lake proposal could be tied in with the expansion of the lake to develop the lake as a recreation area.

Emphasizing the family camping boom, McKinney noted the tourist attraction would be from the entire two-state metropolitan area and that the lake-park would provide needed recreational facilities for local area residents. He also showed slides of the lake and surrounding area in its present state.

Marvin Van Metre announced the club will sponsor a chili day Tuesday, Dec. 3. He asked all members to sign work sheets for specific committees to assist in the project.

Next Tuesday, Rotary District Gov. Harold Blair of Virden, Ill., will be the guest speaker. During the one-day visit, Blair will meet with club officers to discuss programs of activities for the remainder of the year.

#### Clear Vision 'A Must' On Frosty Mornings

"You wouldn't drive blindfolded—so don't take chances driving with ice covering the windshield and windows of your car," the Quad-Cities Safety Council advises.

"On these frosty days, be sure to clear any ice that may have collected on the windshield or windows of your automobile, so that you will have a clear vision of the road when you step behind the wheel."

"Winter driving is fraught with enough hazards—what with icy roads and snow and sleet often to contend with. Don't add to the danger."

"It could spell the difference between your life or death, the council cautions."

50,496 to 41,770 for Republican John B. Copping, an Alton attorney, in Bond county, the unofficial totals were 2905 for Beatty and 3322 for Copping.

In the Quad-Cities area, the totals for trustees of the East Side Levee and Sanitary District were—William (Mike) Ebersold, 14,553, and Joseph A. Grant, 14,285, to give the Democratic incumbents decided victories over Republican candidates, Andrew Jess Parks, 7667, and Edward Werner, 7667.

For state representative, 55th District, incumbent Ralph T. Smith (R) of Alton, formerly of Granite City, led the vote-getting with a total of 82,006. Leland J. Kennedy, incumbent Democrat of Alton, received 61,741, and Horace L. Calvo (D) of Granite City, elected to his first term as legislator, received 53,940 votes.

In the Madison county area vote, Melvin Price (D), incumbent representative in Congress for the 24th District, piled up 46,416 votes to 17,815 for his GOP opponent, John S. Guthrie.

In the still unsettled race for clerk of the Appellate Court, Fifth Judicial District, James R. McLaughlin (D) received 49,879 votes in Madison county to 41,233 for David F. Maillet (R).

**Straight Balloting**  
At the top of the ballot, Madison county voters with 27,389 straight-Democratic ballots and 22,010 straight-Republican ballots, gave Hubert H. Humphrey and Edmund S. Muskie total votes of 46,394 for substantial margins over the 39,822 for Republican President-elect Richard M. Nixon and Vice-President-elect Spiro T. Agnew, according to the canvass count.

George C. Wallace was given 14,887 Madison county votes in his bid for the Presidency.

However, traditionally Democratic Madison county gave further evidence of the tremendous number of split ballots with the vote of 46,574 for Republican incumbent U. S. Senator Everett McKinley Dirksen to 44,621 for Democratic candidate William G. Clark.

Governor-elect Richard B. Ogilvie (R) was given a slim victory over Democratic incumbent Gov. Samuel H. Shapiro—48,429 to 48,056.

In the odd race for lieutenant governor, Madison county set the pace for the state to elect Democrat Paul Simon (D). Troy with 69,801 votes to 34,127 for the Republican contender, Robert A. Dwyer.

Secretary of State Paul Powell, Alton Democrat, incumbent, was given a substantial margin of victory over Donald D. Carpenter (R)—56,108 to 39,921; and Michael J. Howlett, Democratic incumbent state auditor, was given 50,934 votes in the county, to 40,885 for Republican candidate William C. Harris.

For the office of attorney general, Francis S. Lorenz (D) received 47,625 votes, to 44,733 for William J. Scott (R); and in the race for clerk of the Supreme Court, Fannie G. Jones (D) was given 46,671 votes to 44,837 for Justin Taft (R).

The canvass showed the three Democratic candidates for trustees of the University of Illinois to be the winners in Madison county—Kennedy E. Williamson, 48,334, Frances Best Watkins, 48,214, and Timothy R. Ives, 48,254. Republican votes were 43,303 for Timothy W. Swain, 41,410 for Earl M. Hughes, and 40,850 for Russell W. Steger.

Madison county voters voted down all three special ballot propositions in the Nov. 5 election.

The constitutional convention tally was 42,661 yes and 43,196 no; the natural resources bond issue, 30,001 yes and 46,533 no; and the banking act, 36,535 yes and 44,340 no.

Voting for the Socialist Labor Party was extremely light in the county. Henning A. Blomen for President and George S. Taylor for vice-president received only 88 votes; while Louis Fisher for the U. S. Senate totaled 139. Edward C. Stanley L. Prokhor for lieutenant governor, 127.

George A. LaForest for secretary of state received 128, and Elizabeth Schnur, candidate for state auditor, received 159.

The vote for George P. Milonas for attorney general was 133; Gregory P. Lyngas for clerk of the supreme court, 145; and the three University of Illinois trustees candidates tallies were Edwin L. Williams, 205; Clara L. Essex, 164, and Henry Schilling, 193.

## Counselor and Teacher Hired

The Granite City school board last night hired Mrs. Joan Massa, Collinsville, as a counselor at Grigsby junior high school retroactive to Nov. 6 and Miss Charlotte M. Berger, Belleville, to teach a Washington school first grade class beginning Dec. 10.

Mrs. Massa holds a bachelor degree and had taught for five and a half years. Miss Berger has six years of teaching experience and has a bachelor degree from St. Mary of the Woods College in Indiana.

Resignations were accepted from James Morrison, 1619 Lindell blvd., high school physical education teacher and coach, effective May 29; Mrs. Peggy Pavlin, Collinsville, GCHS English teacher, effective Jan. 17; and Mrs. Mary Cappaus, Collinsville, grade school speech coordinator, effective Dec. 20.

The board approved addition of 15 names to the list of substitute cafeteria workers. Board Member Harold Davis was appointed to serve as contact for this district and region between the Illinois Association

of School Boards and members of the state legislature. The IASB convention in Chicago Nov. 23-25 is to be attended by Davis, George Moore, Donald Stucke, Arthur Metcalf and Supt. Bob J. Davis.

It was decided to ask the IASB to encourage legislation that would equalize the bonding limitation in unit school districts and in areas where there are dual school systems.

At present, unit districts like Granite City can issue bonds for up to 3% of the assessed value, while elementary and high school districts can total 10% through their individual 5% limits.

The board authorized the Granite City Air Pollution Board to install testing equipment on school buildings in the West Granite City area.

The Woman's Christian Temperance Union was authorized to make educational films available to schools desiring to use them.

Beit and Given of St. Louis, original engineers on installation of the Mitchell grade school sewage treatment plant, are to be contacted to serve the school district in scheduling treatment improvements to meet requirements of the Illinois Sanitary Water Board.

Re-roofing of a section of Frohardt grade school will be carried out by the Geisler Roofing Co. at a cost of \$790. Rite Electric Co. was authorized to move wiring and controls for the Grigsby junior high school gymnasium scoreboard.

## Strikes Continue To Idle 4300 as Negotiations Lag

The Quad-City strike picture—with more than 4300 persons idle at four industrial plants—remained unchanged today as negotiations sessions in two of the walkouts ended without progress. No meetings have been scheduled in the other two instances.

A meeting between leaders of Chemical Workers Union Local 50, which has nearly 1000 men on strike at the Granite City Steel Co. blast furnace plant, and steel company officials, broke off within an hour after they started in St. Louis Tuesday morning.

Representatives of both sides said there was no progress toward a settlement of the union's demand for wage increases above those granted other Granite City Steel Co. workers.

The firm already has laid off about 800 employees in the mill as the labor force shrank.

Further contract talks in the morning at a cost of \$790. Rite Electric Co. was authorized to move wiring and controls for the Grigsby junior high school gymnasium scoreboard.

result of the blast plant walkout and company officials said earlier this week that more layoffs are in prospect. No further meetings are scheduled.

Representatives of United Steelworkers of America Local 4804 which has 700 workers on strike at the Madison plant of Dow Chemical Co. met six hours yesterday with company officials. George Becker, USWA subdistrict representative, said there was no progress in the meeting on settling issues of seniority and job security, major stumbling blocks in a new contract agreement. The strike at Dow began Aug. 31.

Another meeting between Dow officials and union leaders is scheduled in the U. S. Mediation offices in St. Louis Tuesday beginning at 10 a.m.

No negotiation sessions have been held since the beginning of a strike of 180 steelworkers at General Steel Industries on Nov. 2, and none was reported scheduled today. Clyde Boyd, subdistrict USWA representative for USWA Local 1022 at General Steel said the union is ready to negotiate at any time. An additional 700 workers at GSI are laid off because of the steel workers strike.

Further contract talks in the morning at a cost of \$790. Rite Electric Co. was authorized to move wiring and controls for the Grigsby junior high school gymnasium scoreboard.

Business representative of International Association of Machinists District 5, of which the striking machinists are members, said that no meetings have been scheduled between company and union officials, but that the union is willing to meet at any time. Wage increases are the primary issue in the strike.

## Crop of Turkeys Down 16%; May Boost Prices

Reductions in the 1968 turkey crop may mean housewives will pay slightly higher prices for this year's Thanksgiving turkey, according to Walter Wills, Southern Illinois University farm marketing specialist at Carbondale.

Wills says the latest U. S. Department of Agriculture report shows turkey producers have reduced production this year by about 16% from the big 1967 crop that knocked producer profits haywire.

The USDA estimates the producers may get at least one or two cents a pound more this year than last. The stronger market for farm sales may be passed along to the consumer in higher meat market prices, but how much prices go up will be governed by two factors, Wills says: the popular demand for turkeys, and how much the government buys from cold storage stocks.

Estimated cold storage holdings of dressed turkeys on Sept. 1 were 30 million pounds, down about 10% from the record holdings at the same time last year. Up to that time the federal government had bought better than 30 million pounds from 1967 and 1968 holdings for the school lunch program and was planning to buy more.

The expected turkey crop this year is a little less than 107 million birds. Nearly all major turkey producing sections of the nation show a reduction in output, led by a decline of 20 to 25% in south central and western areas.

California, which was the 1967 leader, cut production by 25% to an estimated crop of just under 14 million turkeys this year. Minnesota, always a high turkey producing state, currently is in first place with a little more than 14 million birds. Missouri ranks third with better than 9 million turkeys but down about 20% from 1967.

Other high producing states with outputs of six to eight million turkeys are North Carolina, Texas, Arkansas and Iowa.

Illinois is not considered a big turkey producing state. It is tied with Nebraska for 21st among the states with 1968 prospects of 880,000 turkeys.

## Deported Missionary To Speak Here Tonight

Marion W. Way, a lay missionary of the United Methodist Church, will present a program to the people of the United Methodist Church, Fifth street and Ewing avenue, Madison, at 7:30 this evening. The public is invited to attend.

Mr. Way has been a social worker in Brazil since his deportation from Angola in 1961. A native of Charleston, S. C., he went to the Portuguese Colony of Angola in 1952 as a special-term (three-year) missionary, after studying the Portuguese language and culture for a year in Lisbon. He was deported by the Portuguese government after being accused of "activities subversive to the government." Although the proof of the charge was given, he and three other missionaries were imprisoned in Lisbon for 90 days.

## Man Fined for Conduct

Roger L. Ashenbrenner, 26, of Bloomington, was charged with disorderly conduct at 8:30 p.m. Tuesday. He pleaded guilty Wednesday morning and was fined \$20 plus \$10 costs by Magistrate William Johnson.

## MISS VIRGINIA ROBINSON

### Evangelist-Singer At Apostolic Church

Miss Virginia Robinson, evangelist and singer, is the featured speaker during the two-week revival services in progress at the Apostolic Pentecostal Church, 2633 Missouri avenue.

The services held each night at 7:30 p.m., began this week and will continue through Nov. 24.

Rev. Hubert Liles, pastor, said special singing groups from the St. Louis and local area will be present each evening.

### Underground Film Series at SIU-SW

A 90-minute program of experimental films will be presented at Southern Illinois University-Southwestern campus next Thursday at 3:30 p.m. and 8:15 p.m. in the Communications Building theater.

Entitled "The Scene," the program is one of an eight-part Underground Film Series being distributed to colleges and universities by Bell & Howell Co. It includes the work of such well-known filmmakers as Fred Mogubug, Alvin Fiering, Thomas Baum and Dennis L. Challenging the young American to examine this generation as it relates to the past, the program poses the question, "Is this generation really different, or are we witnessing the old rebellions with different words?"

There are eight films included in this part of the series, of which several are winners of international festival awards. One of these, "Pop Show," is an animated survey of the pop culture and the pop scene in the U. S.

Also included in the Thursday shows are "The Automobile" by Fred Fischer, which comments upon the place society has given the automobile as a symbol of our aggressions, our fantasies and our sexuality, and "That's Where I'm At" by Flirting, a visual reiteration of the comment made by a Negro painter, "... we displayed the bright, neon promise of America before those whose capacity to attain that promise was denied."

The Underground Film Series is sponsored by SIU-SW's Fine Arts Division. The public is invited. Admission is \$1 at the door.

### County to Consider Merit System Plan

A recommendation for adoption of a merit system for sheriff's department employees is to be made next Wednesday during a regular meeting of the Madison county board of supervisors.

Unanimous approval was given the plan by a special committee of the board, and a resolution to initiate the merit system is to be prepared by tomorrow's meeting of the committee.

The resolution, if adopted, would authorize Board Chairman Harold Landolt to appoint a commission of three members with not more than two from the same political party to adopt rules and regulations for establishment of a merit system for employees of the department.

Rules and regulations would be subject to approval by the board of supervisors before the commission is organized.

In reaching the decision, the special committee members made personal studies of merit system operations in three counties and corresponded with five others. Visits were made to the Peoria, Macon and Champaign counties.

## Gridiron Trojans Overcame Many Obstacles to Share Championship

The "deck" seemed to be "stacked" against the Madison High school football team this fall, but it has emerged with a share of the Midwestern Conference championship, reviving memories of the era when Trojans consistently captured league titles.

In losing to the Bethalto Eagles 14-13 last weekend, MHS ended in a three-way tie with Bethalto and the Dupo Tigers, each having a 4-1 conference record. Dupo edged Bethalto 14-13 and was crushed by Madison, 34-13 during the season.

To start with, Madison had a teachers' strike, and this meant that new Coach Alvin Vander Haar had to handle the team by himself. It was also at one time doubtful whether the Trojans would be able to open their season on time because of the strike.

**Ruling By State**  
An Illinois High School Association ruling gave the Trojans permission to open their season as scheduled on Sept. 14. The Trojans were granted permission to play their first three games, against O'Fallon, Rosary and Highland.

Prior to the Highland game, classes were started and the work coaching staff went to work.

In the last three years, the Trojans have had three different head coaches, each with his own ideas and philosophies of the game.

Last year, the Trojans had a shot at first place until the last two games, when difficulties at the school arose and the Trojans had to play an inexperienced squad against Rosary and then decided to forfeit the last game.

**Learn New Techniques**  
This season, it went right down to the wire. If they had beaten Bethalto, the Trojans would have won first place undisputed.

After losing their first two

non-conference games to O'Fallon and Rosary, the Trojans won four straight conference games.

According to Coach Alvin Vander Haar, it was a matter of getting the new Trojan defense working properly.

MHS used a defensive line of three players and three behind them, standing in about a yard behind the front three. They had three linebackers and halfbacks, plus two outside safety men.

**Stunting Defense**  
It was a stunting defense in which each had a different assignment for every play.

In the first game, O'Fallon caught the Trojan outside men shooting in too quickly and beat them 27-0 with short passes that got good yardage, only a safety man remaining between the receiver and the goal line.

In the next game, the defense improved but the Trojans showed a need to perfect their timing on offense, and their ability to hold onto the football.

**Outstanding Offense**  
But soon, everything seemed to jell and MHS began clicking up regular victories, including

an explosive 74-0 triumph in which a scoring star was born, Dwayne Shaw. The sophomore halfback carried the ball 16 times for 247 yards in that romp. On defense, he made several key tackles and intercepted a pass.

In several of the games, the Trojans sported the enemy a touchdown or two but were able to put together successful rallies.

Dale Clinton later began to dominate the MHS offense and finished the season with eight touchdowns to seven by Shaw, six by John Ervin, five each by Harold James and Jim Scott, three by Eddie Hilton and one apiece by Mike Tuohy, George Tyus, Harry Boyd, Gary Bathan and Philip Davis.

Quarterback Scott ranked among the top signal callers in this region in passing effectiveness and yardage.

Seniors who will not be with the Trojans next season are Courtney Barrett, William Campbell, Dale Clinton, Doug DeRosier, Pat Economy, John Harper, Eddie Hilton, Steve Lewis, Jim Scott, Mike Tuohy, Stanley Young, Dan Williams and Dwayne Shaw.

## Unbeaten Cougars To End Their Soccer Campaign Saturday

Two undefeated area collegiate soccer squads will meet head-on Saturday at SIU-SW.

The game begins at 1:30 p.m. on the Bluff road field. The Cougars are hoping to stretch their regular season record to 10-0 in this final game of the year. The University of Missouri at St. Louis team brings a record of four wins and one tie to the match.

Recently, the cross-river club upset Rockhurst College of Kansas City. SIU-SW has scored four shutouts in its second season of play. Last week, it blanked the University of Illinois-Chicago Circle at Chicago 3-0.

In varsity competition, SIU-SW has scored a total of 44 goals against only seven for the opposition.

Leading the Cougar attack has been John Cavanaugh with 14 goals and 11 assists for a total of 25 points. Other top scorers have been Jack Blake with 12 and Fred Faucett with 12 points.

## Soccer Warriors Will Open 2nd Year Monday

The Granite City high school Fighting Warriors soccer team will begin competition Monday at 4 p.m. at the GCHS field against Gibault of Waterloo.

The Warriors, opening their second season of varsity soccer, are expected to have a much stronger team than last year.

Many who played in 1967-68 are back, and many boys who

have been playing in Granite City YMCA soccer leagues also will be competing.

Last year, the Warriors finished with a record of two wins, five losses and three ties, considered good for the first year of competition.

The Warriors have an expanded schedule, advancing from 10 games to an 18-game season, and may enter a local tournament at the close of the season.

The worst that the Warriors were beaten last season was by McCluer, 5-0.

Opponents this season will include McBride, Lutheran North, B&A Bombers, Riverdale Gardens, Rosary, Dubourg and CBC.

Some of these were powerhouses in their conferences last season. The Warriors have not joined any soccer conference.

GCHS is affiliated with the Southwestern Conference in all of its other sports. There may be a move to try to interest the Warriors in a conference in starting soccer play.

The only Illinois team that the Warriors will play is Alton, which last season seven teams, six of them were the schedule follows:

## Board Preparing To Decide on GC School Architects

The Granite City school board decided last night to proceed with hiring architects, prior to the Dec. 7 election on proposed construction of a junior high school and two grade schools and expansion of the school gymnasium facilities and Coolidge junior high classrooms.

Supt. J. F. Davis will confer with the two local architectural firms, Henry Gabriel-Sylvester-Dulgeroff and Virgil Dulgeroff, and if agreements are reached contracts will be considered by the board at its Nov. 27 meeting.

Before going into an executive session to review architect hiring, board members voiced dissatisfaction with the adequacy of soil testing at Parkview grade school, where weakening of the ground has resulted in repairs costing \$3600 to prevent structural damage.

A study of the Parkview problem is continuing, with no decision yet on allocation of the funds between architects, engineers, the testing firm or the school district.

A delegation of about 20 parents from Niedringhaus school asked that either two classrooms be constructed or more part of the Dec. 7 construction bond issue election or that two portable classrooms be installed at the school.

It was noted that two of the classrooms currently in use were converted from a teacher lounge and from a coal storage area.

Parents said the Reinhardt agency plans to erect 60 homes in the vicinity of Michigan and Oregon avenues adjacent to the Lauderdale Park Estates. One mother expressed concern that if the new homes are left in the Niedringhaus school zone, boundaries will be changed to transfer some of the present area to another elementary school.

The group agreed to name three members to contact Supt. Davis today for an appointment to review the situation in more detail. Attorney Richard Allen outlined the parents' thinking to the board.

Board members noted that a four-classroom addition to Niedringhaus was a part of the 1965 bond issue. One parent objected to construction of new schools in unincorporated areas.

## GCHS Looking to Next Year But Grid Champion Still Undecided

The 1968 football season for the Granite City high school varsity squad is history, and thoughts already are turning to such sports as soccer, basketball and wrestling, and to the 1969 grid season.

But the Southwestern Conference championship is still undecided, depending on the Thanksgiving morning game, Nov. 28, in which East St. Louis will visit Belleville West.

In many past seasons, the two Turkey Day rivals have fought it out for the conference title.

This time, the Alton high school Redbirds still have a shot at the undisputed championship by their final league victory over five wins and a tie. Alton tied the Maroons of Belle-

ville West and defeated the Flyers of East St. Louis.

**Could Tie for Title**  
Belleville West, with four wins and a tie going into the Thanksgiving contest, could tie for the championship by winning.

The Flyers can only play the spoiler, since their 4-1 record makes it impossible for them to catch up with Alton. However, a victory over Belleville West would enable them to vault into second place, with the Maroons finishing third in the final conference standings.

**Deadlock With Strong Althoff**  
GCHS finished without a conference or non-league victory but managed to tie the two non-conference teams, Belleville Althoff and Quincy, a slight im-

provement over the previous year.

Hopes were high at the start of the current season when the Warriors rallied to gain a 12-13 victory with the strong Althoff Crusaders after failing behind in the first quarter. Jim Greenwald, junior fullback, scored the first Warrior touchdown and continued to figure prominently in the offense throughout the year.

Until last weekend, the tie by the Warriors was the only blemish on the Althoff record. However, the Crusaders bowed to Lincoln of East St. Louis.

GCHS went into a slump after the Althoff game, suffering successive losses to Belleville East, Collinsville, Alton, Wood River and Belleville West.

Granite City was able to put at least one touchdown on the board in six of the nine games.

**Senior Gridders**  
Seniors who have ended their GCHS grid careers include Jim Rollins, Jim Jones, Roger Pease, Mike Bradford, Mike Pe-

karik, Mike McGovern, Ralph Burnett, Bob Pates, Tim Wallace, Dave Cooper, Jerry Cook, Marion Stawar, Roger Laws, Gene Livingston and Roy Waugh.

Belshe, Pates and Wallace shared captain duties.

Also absent from the Warrior gridiron next year will be Coach Jim Morrison, who had moderate early success here but has seen the GCHS football fortunes take a decided downturn in the last two years.

**Resignation Accepted**  
The school board last night accepted his "wish to resign the position of head football coach" and hand truck coach and teacher effective at the end of the present school year."

Morrison related, "I reluctantly take this step for personal reasons but do so at this early date so that you might have a maximum amount of time to find a suitable replacement."

"My wife and I will always treasure our residence in Granite City. I wish to thank you for your past support and backing, and wish you nothing but the best in all your future efforts to continue to further our excellent school system."

## Another Auto Burned; Others Stolen, Looted

Another burning of a stolen auto and a series of auto thefts and car lootings marked 11 crimes reported Tuesday night to Granite City police.

A 1967 two-door auto owned by Gary Oram, 2838 Victory drive, stolen Tuesday night from his home, was found burning on Chouteau Slough road at 6:30 a.m. Wednesday before the theft was reported at 7:50 a.m., the Madison county sheriff's office was notified. The auto, which was destroyed, was towed away.

The 1963 sport model auto of John Keller, Rural Route Two, Granite City, was stolen Tuesday night at 11:45 p.m. yesterday from the Madison county Jail in 1400 block of Fourth street in 1400 block, according to a report to Madison police.

Donald E. Tribough, 1922 Sixth street, Madison, reported to Madison police early today that his 1960 model auto was stolen from his home during the night.

Police recovered a truck, abandoned near a service station at John and Nanticoke roads at 7:25 p.m. Monday. The vehicle had been reported stolen in Wood River.

Police are investigating reports of two burglaries on Monday at a house at 2323 Delmar road, where a man was taken to a hospital.

## Height, Speed, Experience To Aid Warrior Cage Squad

The Granite City high school Fighting Warriors basketball squad for 1968-69 has all the essentials of a good team—height, speed and experience. The only question is whether it can jell in time for the opening game against Springfield Griffin Nov. 30 on the Springfield court.

Local fans won't get a chance to see the GCIS club at home until the opening game of the southwestern conference schedule Dec. 6 at the memorial gymnasium, where the Warriors will tangle with the perennial powerful Collinsville Hawks.

Coach Don Detering says, "We have to play this team sooner or later, and it could turn out to be a break for us to play them so early in the season on our home court."

"We will have one slight advantage over Collinsville. We play two pre-conference games

and they play only one before meeting us. They open the same night that we play at Griffin, and then we come back on Dec. 3 to play at Breese Maize.

**Simpson, Hutchings Back**

The Warriors will have six returning lettermen who saw extensive duty on last year's team. They include Gary Simpson, 6'1", guard, the leading scorer last year.

Other returning men are John VanBuskirk, 6'1", guard, Roger Belshe, 5'9", guard, Rick Hutchings, 6'5", center, Dave Metzger, 6'1", forward, and Tim Moore, 6'3", forward.

The team started its workouts Oct. 14 and since then has been practicing offense and defensive patterns daily.

However, with football players reporting for basketball practice for the first time this

week, it will be necessary to re-view many of the drills.

**Spotlight Rebounds, Errors**

Coach Detering is emphasizing three tests that Granite City must meet to be a competitor this season. These are rebounding, limiting mistakes and eliminating needless fouls. "I look very optimistically at the year. We look better now in our workouts than we did last season. We have some good players on the team who should have good seasons."

Boistering the varsity returns are a senior, Rick Thompson, a 6'2" forward, and a player who "jumps very well," Jeff Boyles, 6'3" junior forward.

Other prospects include Steve Harris, a six-footer, and Larry Pirtle, 5'11". Pirtle has impressed with his outside shooting ability, hitting well from the corners.

## Goose Season Open In Four Counties

Over 100,000 Canada geese have completed their migration from the breeding grounds of northern Canada to their traditional wintering area in southern Illinois, according to the Illinois Department of Conservation.

Goose season in Alexander, Union, Williamson and Jackson counties began this week, and will end at 3 p.m., Sunday, Dec. 22. If a quota of 20,000 geese is harvested before Dec. 22, the season will be closed immediately.

Hunting hours are from sunrise until 3 p.m. every day. The daily kill limit of five geese may not include more than two Canada geese or subspecies, or one Canada and one white-fronted goose. The possession limit is five geese but hunters may not retain more than four Canada or two white-fronted geese, for four Canada and white-fronted in the aggregate.

All geese killed must be carried as the personal baggage of the hunter who took them. They cannot be shipped, mailed, transported or carried by another hunter. Sportsmen who bag geese must obtain a kill certificate from personnel of the Department of Conservation or employees of the U. S. Bureau of Sport Fisheries and Wildlife.

## SIU Survey Shows Quail Plentiful In S. Illinois

Conditions look bright for a blue-ribbon quail hunting season in southern Illinois.

Field surveys by Southern Illinois University's Cooperative Wildlife Research Laboratory at Carbondale point to a crop of birds about equal to last year's 10-year high, and prime hunting conditions.

The season opens at noon Saturday and ends Dec. 31 at sundown.

Quail populations in 1967 were way up but hunting success was held down some because of weather and crop circumstances. Unharvested corn and soybean stands throughout the region provided plenty of sometimes inaccessible cover.

This year, however, most harvests have been completed, thanks to dry weather. A damp, cool snap that followed the extended dry spell has cut down vegetation and provided excellent scenting conditions for dogs.

John Roseberry, staff assistant in the SIU Laboratory, said dogs used in the field survey worked more effectively than at any time in his experience on the project. The study, done in cooperation with the Illinois Natural History Survey, is conducted each year on a 1500 acre plot of representative quail land near Carbondale. This marks the 19th year of the pre-season survey.

Project records show three distinct 10-year "peak" cycles in the quail population. The first was 1947-49, a second occurred in 1957-58, and this fall appear to be a third.

Willard Klimstra, director of the Laboratory, has one caution for old-timers planning to hunt this fall. "There have been some rather drastic land use changes in the past 10 years, and they might find many old quail areas gone. Elimination of idle areas by reasons of crop succession, agricultural pasture programs, have altered the quail habitat considerably."

## Deer Contest Open To Illinois Hunters

The Illinois Federation of Sportsmen's Clubs' second annual "big deer contest" will be open to gun and bow hunters, male or female.

Four awards will be given, two in the senior division and two in the junior division for the biggest buck and the biggest doe killed during the 1968 hunting season.

The senior division is open to hunters 21 or over and the junior division to those under 21.

Entry blanks will be available at check stations on the October issue of "Illinois Wildlife," official publication of the Illinois Federation of Sportsmen's Clubs.

## Duck Kill Declines Near Grand Tower

A field check of duck kills at the Oakwood Bottoms Green-Tow Reservoir near Grand Tower indicates that this season's hunting harvest is "running in the hundreds, compared to the thousands last year."

That's the word from John Krull, assistant professor of zoology at Southern Illinois University, Carbondale, who has set up two check points on the hunting area under a \$800 research contract with the Illinois Federation of Sportsmen's Clubs.

The U. S. Forest Service has 2500 acres in the Oakwood Bottoms area under management for migratory waterfowl. It's part of the Shawnee National Forest.

Krull and SIU graduate students are manning the Federation-sponsored check points. Krull said the meagre bag is running about half mallards and half wood ducks.

## MORE ABOUT State GOP

jobholder in the county. He said the lieutenant governor "hasn't a thing to do with patronage." Loss of Democratic patronage will deal a severe blow to Democratic party strength not only in the Quad-Cities and Madison county, but throughout the state. Democratic jobholders contribute a salary percentage to the state and local Democratic organizations for political purposes.

At Alton, Republican County Chairman Charles Walters described patronage as the "lifeblood" of a political party and said Republicans who replace Democratic jobholders will be asked "to join the Republican Club" by contributing a percentage of their salaries to the GOP cause.

Walters said it is his obligation to see Democratic jobholders in the county are replaced with Republican patronage workers.

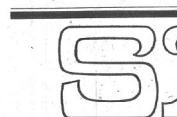

**Name of the Game**  
"This is the name of the game," Walter said, noting that he is now conducting a survey for the newly-elected Gov. Richard Ogilvie to serve as a guide as to who is going to be replaced and who isn't.

Several thousands of state employees who are under the merit system—both Democrat and Republican—will not be affected by the transition. Before the merit system was introduced in Illinois there were many more patronage jobs that would have been involved in a party changeover.

The re-election on Nov. 5 of Secretary of State Paul Powell will offset some Democratic patronage losses. Powell has refused to place his 2000 employees under the merit system.

Ross V. Randolph, director of the Illinois State Department of Public Safety, will be the guest speaker. He will be introduced by Capt. Emil Toffant of Madison, district state police commander.

National camping awards will be presented to troops and posts, and summertime pack awards will go to cub packs in the Quad-Cities. Prayers will be offered by Fr. L. J. Mattingly, St. Elizabeth pastor, and there will be vocal music by Fr. George Morelock, assistant pastor.

## George J. Lappe, 51, Dies; GCHS Employee

George J. Lappe, 51, of Brees, Ill., a Granite City Steel Co. yard maintenance employee, was pronounced dead upon arrival at St. Elizabeth Hospital at 2:20 p.m. yesterday.

Taken to the hospital by ambulance from the plant where he collapsed while working, Mr. Lappe was found by fellow employees lying on the ground in the hot strip mill slab yard. He had not been ill. An inquest is pending.

Employed as a burner at the local steel company the past 15 years, Mr. Lappe was born and reared in Brees township and was a life-long resident of that area. He was an Army veteran of world war II and a member of St. John United Church of Christ in Brees, and United Brotherhood of America.

A brother, Arthur Lappe of Brees, also employed at Granite City Steel Co., is among the survivors.

Mr. Lappe leaves his wife, Mrs. Agnes Wiese Lappe; one daughter, Miss Bonnie Lappe, at home; his brother, Arthur Lappe; and six sisters, Mrs. Almada Stroehde of Carlyle, Ill., Mrs. Orville (Freda) Von Alst, Mrs. Ray (Adele) Mueller, Mrs. Ellsworth (Bertha) Lewis, all of Brees, and Mrs. Eleanor Hedley and the former Miss Teletia Lappe, both of Decatur.

Funeral arrangements are given in today's obituary column.

## MORE ABOUT City Primary

provides that aldermen now in office will serve out the remainder of their terms even though their wards are eliminated by redistricting.

Four Venice Aldermen will elect a mayor, city clerk, city treasurer and four aldermen, one for each of four wards. All of the incumbents in Venice are expected to seek re-election although no formal announcements of candidacy have yet been made.

Granite City has the more complex election problem of any of the Quad-City communities due to its redistricting which cut the city's number of wards from eight to seven and resulted in three wards that now have more aldermen than the customary two.

The term of one alderman in each of the city's old eight wards expire this year. These include William Dallas, Ward 1; Edmund Bartlett, Ward 2; Roy Poulos, Ward 3; Paul Rutledge, 4th; Steve Basarich, 5th; Richard Fry, 6th; R. E. Robertson, 7th, and Ford Johnson, 8th. All of these remain in their respective wards except Rutledge who now is in the 2nd Ward; Robertson, now in the 4th, and Johnson, now in the 5th.

Granite City's mayoralty election in 1969 has the prospect of a wide open election and early report of the candidates expected to enter the race indicate that the primary election virtually is a certainty.

**Early Alignments Expected**  
Boyd's announcement today and the early filing period opening Dec. 21 is expected to result in early political alignments within the next few weeks.

Alderman Rutledge announced several weeks ago that he planned to seek election as mayor in the event that May or Partney does not run again. Partney has been silent along these lines, but told the Press-Record yesterday that he will make his election plans known within the next week.

He is a graduate of Granite City High School and Asaf courses of the U.S. Navy, and is Educational Coordinator of United Steelworkers with the University of Illinois and Southern Illinois University.

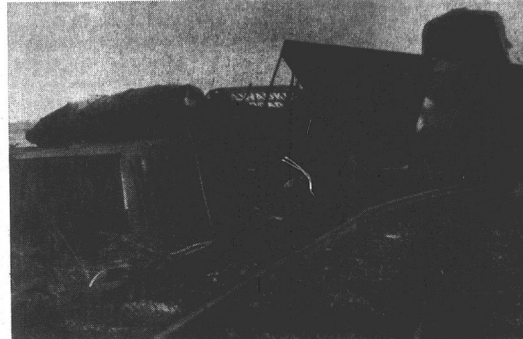

He also is co-chairman of the Legislative Committee of Subdistrict 34 of the United Steelworkers and advisor to Southern Illinois University Labor Education.

Boyd is a member of the First Presbyterian Church, a member of the Emerson school PTA, delegate to the Tri-City Trades and Labor Council, a member of the American Legion, Veterans of Foreign Wars and Moose Lodge.

Boyd served with the U.S. Navy from 1950 through 1954. As alderman of the 8th Ward he has served on the Sanitation, Civil Defense, Fire and Water, Police and Planning and Zoning Committees.

He served as Granite City chairman of the March of Dimes industrial workers; Thirty-Minute club of the Granite City Steel Co.; former president of local 67 of the Steelworkers; Cold Strip joint committee and vice-chairman of the joint committee; trustee from 1956 to 1960 at Granite City Steel Co.; is a director of the Granite City Steel Employees Federal Credit Union, and precinct committeeman from 1961 through 1966.

Boyd was elected to the Granite City council in 1963 and was re-elected to another four-year term in April last year. He lives at 2231 Benton street.

**CRISS-CROSSED RAILS** resulted along Illinois Terminal right-of-way east of Route 111 as tumbling freight cars bent and twisted tracks in an early morning derailment Tuesday. Cars piled on top of one another and scattered cargoes of lumber along the right of way as 24 cars left the tracks. The accident happened about 1:30 a.m. about three hours after 11 cars of another Illinois Terminal train were derailed at Edwardsville Monday night. A hook crane patched out of Alton to clear the wreckage shown here was derailed near the Hartford Canal.

## County's Birthrate Increases While Deathrate Goes Down

Madison county's birthrate climbed during October compared to a year ago, it was reported today by County Clerk Miss Eulalia Hotz, who said 539 babies were born in the county last month, while in October 1967, there were 525.

Among the 359 births last month were 184 boys and 175 girls, including five sets of twins. In October 1967, there were 175 boys and 156 girls including one set of twins.

In reporting other vital statistics for last month, Miss Hotz noted a decline in the county's deathrate and a slight increase in marriages.

Last month there were 163 deaths, while in October 1967, the deathrate was 197.

There were 167 marriages in the county last month, up just one over the 166 reported for October 1967.

## Injured Girl Returns; Complaint on Guards

Vicki Gruenfelder, 13, daughter of Mr. and Mrs. George Gruenfelder, 11, 2018 Fourth street, East Madison, who was critically injured when struck by a truck Nov. 1 while crossing McCormick avenue at Third street, returned home from Cardinal Glennon Memorial Hospital, St. Louis, on Wednesday for a long period of recuperation.

An eighth grade student at Madison Junior high school, she was struck while walking to school. Her mother said she suffered brain, back and other injuries and will remain under a doctor's care for a considerable period of time.

Mrs. Gruenfelder, meanwhile, complained that school crossing guards assigned to the same intersection are not always on duty during their assigned periods of time. She said there were no guards on Tuesday and Wednesday of this week and that the guard left 15 minutes early this morning.

Until a man scores one failure he cannot appreciate success.

## Traffic Crashes Injure 8 Persons Here This Week

Eight persons were injured in four of 16 traffic accidents occurring in and near the Quad-Cities last week.

Two motorists and an 11-month-old child were injured at 3:50 p.m. Tuesday in a car collision at Second street and Ewing avenue, Madison police reported. Police said cars driven by T. Briley, 22, of 5044 Madison avenue, and Glynis Ann Henderson, 19, of 1728 Cleveland blvd., collided in the intersection. Both drivers were injured as was David Bryan Henderson, 11 months old, of the Cleveland blvd. address.

The Henderson child was treated at St. Elizabeth Hospital for face and head injuries released to the care of a private physician. Briley was taken to the hospital about two hours after the accident when he developed neck and head pains. Briley was admitted for further treatment. Police said they did not learn if the Henderson woman was hospitalized.

Mrs. Mary A. Baker, 24, of 3344 Red Bud avenue, was injured when her auto was struck by a speeding car driven left of the center line on Madison avenue at Niedringhaus avenue by Rodney A. Jines, East St. Louis, at 11:25 p.m. Wednesday.

Jines, who had been chased by state police, then skidded into parked cars owned by Helen E. Winters, 2824 Adams street, and Howard Gurney, 2325 Gary avenue. Jines was charged by city police with driving without a valid operator's license.

Mrs. Baker was admitted to St. Elizabeth Hospital following x-rays of the pelvis, spine, chest, ribs, back and left elbow.

Three persons were injured in two-car collision on Interstate Route 270, a half-mile west of Route 3 about 2:20 p.m. Monday.

Given treatment at St. Elizabeth Hospital for emergency treatment and was transferred to Christian Hospital North-west in St. Louis.

Venice police said the car was driven by James A. Willis, St. Louis, and was headed west on the bridge when a tire blew out.

## Enthusiasm at Venice Technical Center Cited

Duane Rankin, director of the Venice-Lincoln Technical Center, told Madison Rotarians yesterday that the center has found an enthusiastic response from Madison and St. Clair counties. Rankin said the center has attracted a wide age range and also a wide diversity of students, he noted. The center is operated by Venice schools with state financing. He was introduced by Frank Fijan, program chairman.

Keith Thibault reviewed the Rotarian, monthly magazine of Rotary International, and tested members on their knowledge of the organization.

**S. Illinois Population Gains from 1960 to 1966**

By Pete Brown of Southern Illinois

It's been a great year for bad news, no way to get around it. Bad, bad, bad. So let's hear it for some really good stuff. The returns are in, they've been tested for purity, and—are you ready for this? Population in southern Illinois is on the move. Not down, but up.

A newly-completed estimate by the U. S. Bureau of Census reveals that the 31 counties of southern Illinois actually scored a net 4½% population gain between the 1960 census and 1966.

Five of those counties—Perry, Jackson, Williamson, Franklin and Jefferson—marked a population boomlet estimated at 10.5% during the post-census survey period. That's a stronger showing than the state as a whole (7%).

Those five, collectively called "Greater Egypt," exhibited a startling form reversal. They leaked population badly in the decade between the '50 and '60 censuses; the drain came out to 14,000 bodies. In the following six years, though, they picked up 19,000.

Visiting professor Raymond Wakeley of Southern Illinois University's Community Development Services has done a regional probe on the Census study. He says results "should be very encouraging for the people of southern Illinois."

Indeed they should.

For instance, Jackson and Monroe counties rank among the top five in the state in terms of proportional population gains for 1960-66. Jackson, leaping 31% (from a rounded 42,100 in 1960 to a 1966 estimate of 55,200) ran second only behind Kendall county, the backyard of Aurora and Joliet. Upstate DuPage and DeKalb counties were the other big gainers.

"Out-migration," a somewhat weighty but useful sociological term, has generally been the source of leakage for southern Illinois. But in the survey period, the numbers of people who left were offset by a balance of births over deaths, meaning the population loss pattern outside the counties that gained (particularly Greater Egypt) has at least been checked.

The 1966 population for all 31 counties has been estimated as 1,100,900 persons, compared to the 1960 census total of 1,054,996. That's a region-wide gain of 45,904.

The Greater Egypt five went from 179,100 to 197,900 while

the "metro-east" counties of Madison and St. Clair climbed only half that percentage pace, from 487,200 to 514,800. On this basis, Wakeley says the Jackson-Williamson-Franklin-Jefferson combo has replaced metro-east as the south's top growth stock. Madison did gain more than 8%, but St. Clair slowed. Wakeley describes St. Clair now as "an export area."

Losers in population were Alexander, Edwards, Hamilton, Hardin, Massac, Pope, Wabash, Wayne and White. Hardin suffered most. Its estimated decline to a population of 5100 came to 13.8%, sharpest loss rate in the state next to Henderson county. Of course, when the base figure is low to begin with, any change, up or down, reflects vividly. DeWitt, Effingham and Scott counties were others in the top five of proportional losses.

The 1960-66 population accounting is done on a basis of births minus deaths minus out-migration. So for southern Illinois, the ledger looks like this: Births, 134,000. Deaths, 65,400. Net, out-migration, 12,700. Net population profit, 45,900.

Only Franklin, Saline and Pope counties recorded more deaths than births during the six-year span. Pope had 13 births and 17 deaths per thousand residents each of the years. The comparable ratio for Saline was 16 and 17, and for Franklin, 15 and 16. Hamilton stayed even but all other counties gained in births over deaths, so what minuses occur in the overall study can be nailed directly to the out-migration column.

St. Clair county saw 14,400 residents migrate elsewhere between 1960 and 1966. The Greater Egypt five had an in-migration count of 13,700. Jackson, Perry, and Williamson accounted for the five's across-the-board gains, since Jefferson actually lost somewhat and Franklin held steady.

Monroe county went from 19,100 to 22,700, a jump of almost 30%. Perry county netted 12,775 population increase, to 24,000; Williamson spiraled from 17,900 to 21,200, up more than 18%; and Clinton climbed 6,350 to 27,000.

Wakeley points out that SIU isn't the only influence for growth within the Greater Egypt five, although it's probably the main one. The muscle of Perry and Williamson counties is showing strongly in the new trends.

Tailor Production

One solution is to use mandatory controls to tailor production to market growth, he says. But farmers have repeatedly turned down such proposals.

If grain prices continue to decline, who will bear the brunt? The costs of machinery, seed, fertilizer, herbicides, and similar items will not decline as grain prices go down. This puts the squeeze on the operator's labor and management along with land.

It appears that the brunt of further decreases in grain prices will be borne by the returns to land owners, and this pressure must finally show up in lower land prices. Perhaps the high point in land prices is past. Perhaps the shortage of farms available for tenants to rent is also nearing an end, Hieronymus concludes.

National Landmark

The Morrow Place, begun in 1876 at the University of Illinois, have been designated as a national historic landmark. The plots continue to provide data on the effects of crop rotation and the impact of organic and chemical nutrients on plant yields.

A recent dedication ceremony at the plots included talks by several prominent federal and state officials, among them Dr. M. B. Russell, Director of the Illinois Experiment Station.

Russell made a strong case for the importance of agricultural technology which, simply stated, involves improving the efficiency of trapping energy (sunlight) through the process of the green leaf.

But he said the use of agricultural technology in a given country in the world is strongly influenced by political, cultural, social, and economic conditions.

There are 32 billion acres of land in the world, of which 10% or 3.2 billion acres are under cultivation with many such acres farmed by the most primitive practices, Russell said.

World population is 3.25 billion, so there is now one tillable acre for each person in the world. Present population trend, if it continues, will double the world population in 25 years, thereby reducing the tillable land per person to one-half acre, he said.

Periodic doubling of the world population in such relatively short periods of time will soon result in a fantastically large number, said Russell, and world agriculture already is presented with problems related to technological, political, cultural, and economic situations.

**Which Of Our 4700 Stores Get The Best Beef?**

Believe it or not, there are some people who think the quality of our beef varies from store-to-store. It's not true! Every one of our Meat Departments offers the same high-quality beef, the only quality we sell—"SUPER-RIGHT" Quality. Our quality specifications for "SUPER-RIGHT" Beef are so high that some beef graded "Choice" just isn't good enough to be labeled "SUPER-RIGHT". This one "high quality" policy for all stores applies to all the meats we sell.

It is true, that where customer demand calls for it, you will find thicker steaks, double lamb chops, etc., but they are all cut from the same quality meat that is available in every A&P Meat Department. After all, to satisfy customer demand is just plain good business.

One other thing we want you to know. No matter where you live, if you want that thick steak, double lamb chop or any cut you don't see in the case, just ask for it. WE CARE about, and want to satisfy, every customer... and we mean every customer.

## Public Health Service Issues Flu Reminder

The U. S. Public Health Service advisory committee today issued a reminder that the flu warning flag is up and that a new strain of Asian flu may give the nation another outbreak of the troublesome ailment this winter.

The committee, which earlier had given the country an "all clear," revised its flu prediction following the identification of a new strain in Hong Kong last summer. Already the Hong Kong virus, a variant of the A2 type that gave the country the miseries last year, is beginning to spread.

"It is felt that the present change in the influenza virus increases the probability that influenza A2 will occur extensively in the U. S. in the 1968-69," the Public Health Service reports.

Current vaccines may provide only limited protection against the new A2 Hong Kong virus. Better protection against it will require a newly formulated vaccine; and the development, manufacture and distribution to

## Seminar Opens for Police On Handling Mentally Ill

A two-day seminar on mental health, sponsored by the Granite City police department, Madison County Mental Health, Quad-City Center, and St. Elizabeth Hospital is being conducted at the Tri Cor building today and Friday.

Jerry Staten, executive director of the local clinic, said the sessions are being held from 9:30 a.m. to 4 p.m. each day and certificates will be presented at the conclusion of the classes. Police officers in Madison county and areas of St. Clair county have been invited to attend.

Four topics designed to assist

the police officer when arresting or picking up a person, who is suspected to be mentally ill, will be outlined and discussed. The first is, "Recognition of Mental Illness." This will be illustrated by pinpointing actions and symptoms of an ill person to alert the officer. The second and third topics will be presented in panel discussions on "Processing and Disposition" of a person being taken into custody.

The fourth point of discussion will be referral or follow up in a case. Included will be the resources available for treatment and placement.

physicians of such a vaccine will require considerable time. Only a limited number of doses will be available initially, the federal agency reports.

In the meantime, the Public Health Service recommends that currently available flu vaccines be given primarily to elderly persons or the chronically ill.

Influenza is a viral infection of the respiratory tract. It differs from a cold in severity

and the extent of complications. Its symptoms include sudden chills, fatigue, headache and general aches with temperatures of 101 to 104 degrees.

Sore throat and coughing also may occur as symptoms. Anyone becoming a flu victim this winter may follow the advice recommended during an earlier epidemic by the Surgeon General—stay in bed, take aspirin and drink plenty of fluids.

## Native of India Selling Benefit Unicef Cards

Mrs. Indira Shah, a native of India, whose husband, Dr. Vasant Shah is a research scientist at the Union Division of Miles Laboratories, is undertaking a volunteer service to sell UNICEF greeting cards and calendars.

Funds from the sale of the cards will be used to help provide milk, medicine and equipment for sick and hungry children all over the world, she explained.

Mrs. Shah, who lives at 2707 Center street, has the cards on display at her home and said the sale will continue to Dec. 15. Appointments may be made by calling her at 877-7314.

"The designs for the cards have been donated by leading artists from all over the world to reflect the joy and cheer of the holiday season in the beauty of their themes," Mrs. Shah pointed out.

"The proceeds from one box of cards priced at \$1.50 will protect 50 children against tuberculosis and sales around the world can spell the difference between life and death for countless boys and girls in Latin America, Asia, Africa and the Middle East. Proceeds from the world sale last year

## Role of Family Physicians to Be Cited Next Week

The role of the family doctor is being increased here as this area prepares to observe National Family Health Week Nov. 17-23.

The Illinois Academy of General Practice says the family doctor has been found to be increasingly important as the U. S. health care structure becomes more complex. He is described as "the primary source of medical assistance to families faced with a mounting array of specialists and technicians."

In a proclamation on the special week, President Johnson comments that "in the evolution of our health services system, there has remained one constant—the family physician."

"Today, as a century ago, he bears a unique responsibility. He continues to be the source of treatment and comfort when

illness and accidents occur. He is also the crucial link between the family and the highly specialized services of modern health science."

President Johnson notes that although "a great deal remains to be done," almost revolutionary progress has occurred. He cites four examples:

**Infant Deaths Reduced**  
The death rate among babies in their first year of life reached a new low of 22 deaths for every 1000 live births last year, down from 1980 in 1960.

Boys and girls grow up today largely free from the threat of polio, measles and other potentially crippling diseases of childhood.

One of every three cancer patients is saved today.

Twenty million older Americans are protected by medical care; eight million have al-

ready received hospital benefits from this program.

Dr. Norman Montz of the IAGP says the week is being spotlighted because "good health is a blessing to be prized and protected. The national well-being of our country demands that all members of our society, from every walk of life, enjoy the benefits of modern medical care."

The concept of National Family Health Week was created by the American Academy of General Practice, founded in 1947 as the national professional association of general practitioners of medicine.

**Need Additional Doctors**  
Today, the Academy's more than 30,000 members are concerned with expanding the number and maintaining the quality of family doctors to serve the needs of American families.

In commenting on the significance of the week, Dr. Maynard L. Shuprius, Chicago, AAGP president, says, "In a very real sense the family doctor is the key to good health. He should be the first person called upon to give medical assistance."

"He offers continuity in health care to his patients. Unlike the clinical specialist who limits his attention to a particular disease, organ or organ system, or age group, the family doctor treats the whole patient in the context of his environment."

"The education of a modern family doctor never stops. He continually absorbs into his practice the advances and developments not only in physical medicine, but in areas of psychiatry and psychology."

To provide complete professional patient care, the family doctor must not only be attuned to the latest medical advances, but also to the psychological and sociological implications of illness and accident.

## RIDC Helped Secure 10 Industrial Plants

The Regional Industrial Development Corporation played an active part in bringing ten industrial plants to the upstate metropolitan region during the past year, Howard L. Young, outgoing chairman of RIDC, told the organization's third annual meeting Monday in the Missouri Athletic Club, St. Louis.

Young said that when fully built the firms will employ about 270 workers and bring an additional annual payroll of more than \$37 millions to the region's economy.

Young, who is president of American Zinc Co., was succeeded as board chairman by Dr. Delyte Norris, president of RIDC.

Additional members elected to RIDC's new executive committee are Francis Clancy, business representative of Manufacturers District 9, AFL-CIO; Gilbert Novotny, president of the St. Louis National Stockyards Co.; Roy Rhodes, plant manager of Ford Motor Co., St. Louis; Paul Akin, president of Laclede Steel Co.; Andrew H. Baur, member of the St. Louis County Business & Industrial Development Commission.

**More Board Members**  
Oscar A. Ehrhardt, president of the St. Louis Labor Council, AFL-CIO; William F. Hoelcher, general manager and secretary of the Manufacturers Association of the Tri-Cities; William F. James, president of Bill James Enterprises; Edwin S. Jones, president of Chamber of Commerce of Metropolitan St. Louis; Donald E. Lassiter, St. Louis Clearing House Association.

Dr. George Pake, provost, Washington University; Morris, SIU president; Nicholas P. Veeder, chairman of the board Granite City Steel Co.; Howard L. Young and Richard Horner, chief administrative of-

ficer of Mississippi River Transmission which was elected as director.

In a far-ranging progress report, Young cited several key RIDC accomplishments:

1. Helping ten firms make their decisions to locate plants in this region. "When fully built, these firms will employ some 270 workers and bring an additional \$37,310,000 payroll into our region's economy," he said. He added that RIDC could not and did not take all the credit for this expansion, but that decisions were reached by the firms after consulting several sources. However, he emphasized, RIDC did play a role, in several cases, the major role, in the final decision making process.

2. Aided local out-of-town manufacturers win 21 new contracts with Detroit's "Big Three" for auto parts production; results—750 new jobs and \$6,000,000 in payroll.

3. The RIDC Site Location File now lists over 600 industrial sites.

Young has completed several major research efforts, among them initial planning and testing of a Regional Industrial Bank several local availability surveys and identification of the region's key growth industries.

Explaining that RIDC was launching its first organized membership drive in one week, Young noted that the demand for RIDC's services had necessitated a larger budget. He cited these statistics to make his point: site proposals made by RIDC to out-of-town prospects had jumped 250%; an aggressive staff out-of-town visitation program had jumped 430%; assistance to local firms had increased by 350%; and providing data and aid to out-of-town companies looking at

this region had jumped 889%. Stressing that RIDC is really "getting turned on," he cautioned that there are over 16,000 similar industrial development groups across the country, each trying to win a larger share of business and industry's annual expansion efforts which amount to about \$86 billion. "RIDC's job is not unusual, but it makes every effort to develop a unique approach and win for this region its share of that pie," he said.

Young urged every "forward-looking local government, concerned citizen, company and industrial development-minded group in the region to involve itself (in RIDC) in an active way."

RIDC Executive Vice-President Ross previewed a proposed set of regional "goals" which RIDC will publicly announce at a special reception Nov. 18 at Southern Illinois University-Southwestern Campus.

The nine goals, he said, will be the first attempt by any organization to establish a focal point for the region's leadership. "RIDC, with its truly regional makeup and its three years of basic economic research, is uniquely qualified to make such a suggestion," Ross said. "It should provoke some interesting comment and, hopefully, put us on the road to establishing goals toward which every organization concerned with the growth of our region, should be working."

## Women's Art Program Planned at U. of I.

"Adventures in the Arts—A Program for Women" will be held June 15-21 at Allestree House, University of Illinois conference center near Monticello, it is being announced by Prof. Walter M. Johnson, director, Extension in Visual Arts, U. of I. Division of University Extension.

The week of intensive painting and drawing instruction is intended for beginners as well as more advanced participants and is co-sponsored by the University and the Illinois Federation of Women's Clubs. However, any interested woman, whether or not she is a member of a federated club, is eligible to enroll.

Additional information and registration materials can be obtained from Mrs. V. E. Barnes, Rushville; Mrs. L. K. Segur, 641 S. Fifth street, Watseka, or from Prof. Norman Johnson, director, Allestree House, 116 Illinois Hall, Champaign, Ill. 61820. Fee for the week is \$30 and does not include room, meals or materials, which will bring the total cost for the week to an estimated \$68 to \$124.

## Special Education Aid To Schools Paid at 58%

State reimbursement for Special Education programs carried on during the 1967-68 school year in the Madison county schools has been sent recently to the school districts by Wilbur R. L. Trimpe, county superintendent of schools.

The claims made by the school districts to the state at the end of the 1967-68 school year totaled \$458,768. These claims were paid at a rate of 58.68406%, due to insufficient funds in the balance of the 75th General Assembly special education appropriation. It is hoped a deficiency appropriation will be forthcoming to pay these claims in full, Trimpe said.

Madison county schools received a total of \$269,831 at this time which is \$188,934 short of the amounts claimed.

Last year the reimbursement for the '67-68 school year was for the full amount of the claims, being \$78,036. This year's claims, due to increased programs, were for \$81,729 more than last year.

Section 14 of the Illinois School Code requires all school

districts to provide special educational, and Madison county has organized into three regions with extensive programs so that all students may be served, Supt. Trimpe explained.

## Staten to Attend IWA Conference in Chicago

Jerry L. Staten, executive director, Madison County Mental Health, Quad-Cities Center, will participate in the 73rd annual conference of the Illinois Welfare Association, to be held Nov. 17-19 in the LaSalle Hotel, Chicago. Staten, who is a member of IAWA's 1968 study course committee, will act as leader of a study course on Nov. 19 entitled, "The New Social Worker of 1968."

This year's IWA conference theme is "Concern for Life," and each of the 32 study courses offered during the three-day meeting will explore some aspect of the theme.

Especially relevant will be courses discussing the "black power" movement, various income maintenance proposals, current problems of alcohol and drug abuse, new trends in probation and parole services, and the difference between social work and police approaches to the crises in our cities.

The Illinois Welfare Association is made up of social welfare workers representing the fields of public assistance, mental health, child and family services, corrections, rehabilitation, and other human services. The annual conference, which attracts about 1000 persons, provides a forum for discussion of major social issues and better ways to help persons in need. Besides sponsoring the annual conference, the association last year presented some 75 programs throughout the state which attracted more than 5700 participants.

## Navy Achievement Medal Awarded to S/Sgt. Kaiser

S/Sgt. James Alexander Kaiser of the U. S. Marine Corps, May 1967 to May 1968, Sgt. Kaiser performed his duties in an exemplary and highly professional manner.

"Initially assigned to the Metal Shop of the Aircraft Maintenance Department, he quickly familiarized himself with the A-4 Skyhawk aircraft and was reassigned as Noncommissioned Officer in Charge of Airframes. He was instrumental in the high aircraft availability rate maintained by the squadron.

"Serving concurrently as Career Advisory and Education Noncommissioned Officer, he worked tirelessly to ensure that the men of the squadron were aware of the career and educational opportunities available to them. As a result of his efforts, over one half of the unit's enlisted personnel were enrolled in correspondence courses.

"In addition, as Training and Nuclear, Biological and Chemical Warfare Noncommissioned Officer, he distinguished himself by the exceptional performance of his duties. Sgt. Kaiser's initiative, superb professionalism and steadfast devotion to duty throughout reflect great credit upon himself, the Marine Corps and the Naval Service."

S/Sgt. Kaiser is presently stationed at Dayton, Ohio, as a Marine Corps recruiter. His wife is the former Renee Harris, a daughter of Mr. and Mrs. Webster Harris, 1732 Sycamore avenue, and they have a son James A. Kaiser, Jr.

In Jr. Colleges

Southern Illinois University-Southwestern campus is seeking graduate students who wish to become teachers of occupational studies in community junior colleges.

According to Henry T. Boss, a member of the education faculty and campus coordinator of a special Ford Occupational Instructor Project, there are openings for students for the winter term. The special program, funded in part by the Ford Foundation, is a cooperative venture between Southern Illinois University-SW and the Junior College District of St. Louis and St. Louis county.

Students who have a bachelor's degree can earn graduate credit and at the same time serve as a graduate teaching assistant in an appropriate division in the University. A special one-semester internship is also incorporated in the program.

## Mailing Data for Overseas Yule Packages

Christmas packages headed overseas to servicemen in Vietnam and other Southeast Asian countries, to be transported via SAM (Parcel Air Lift), and PAL (Parcel Air Lift), should be mailed within the next 14 days, Granite City Postmaster Theodore Overbeck reminded local citizens today.

If packages are to be sent via regular airmail rates to military personnel overseas, the deadline is extended until Dec. 11, the postal official said.

Overbeck noted that special attention will again be placed on delivery of mail to servicemen in Vietnam and the surrounding area, with all parcels reaching the men by Christmas, if mailed according to instructions.

For the fourth year, gift parcels weighing not more than five pounds and measuring not more than 60 inches in length and girth combined, addressed to members of the Armed Forces in Vietnam, will be provided air-lift services on a space-available basis from West coast receiving areas to Vietnam, even though the packages are pre-paid at surface rates.

Parcels intended for surface rates must be endorsed at the local post office with the letters "SAM," indicating they are to be forwarded from the west coast via air-lift service, the postmaster explained. The sender pays regular surface rates from the local post office to the military sorting centers.

Postmaster Overbeck also noted that despite the best efforts of the postal service, many parcels do not reach their destination because they are wrapped poorly, or incorrectly or illegibly addressed.

**Wrap Securely**  
To prevent this, postal officials remind those preparing packages for servicemen overseas to wrap all parcels securely; address packages correctly and legibly, using the appropriate five-digit APO or FPO number as part of the address.

Authorities caution that mail addressed to an unspecified addressee will not be accepted. Mail for servicemen must be addressed to a named individual, or to a specific military unit, or USO club facility. A list of USO clubs in Vietnam

was published earlier by the newspaper.

Overbeck recommended those mailing yule packages use a plain duplicate label which plainly shows both the addressee's address and the return address of the sender inside the package.

Gifts should be packed in boxes of wood, metal, solid fiberboard or strong double corrugated fiberboard. All fiberboard boxes should be securely wrapped in heavy paper to strengthen the package.

Each box should be well tied with strong cord. Sufficient cushioning material should be used to prevent any rattling or loosening of articles inside. Unloosening of articles, boxes are likely to be crushed.

**List of Contents**  
A slip showing the list of contents and the name and address of sender and addressee must be enclosed in the parcel. Custom declaration forms, completed by the sender, are required on parcels to many destinations.

In addition to articles normally prohibited in the mail, matches of all kinds and lighter fluid must be mailed to overseas military addresses, and there are restrictions on sending cigarettes, tobacco and other items in parcels destined for military personnel in some European countries. Information on restricted items may be obtained at the local post offices.

Red Cross and USO officials recently advocated wrapping each item separately in gift boxes mailed to servicemen overseas, noting that numerous small gifts, if properly wrapped, make it seem more like home to the serviceman far away.

**Suggested Items**  
Raymond Uram of Granite City, a member of the USO National Council, said that a survey conducted by USO representatives among servicemen currently serving in Vietnam, disclosed the following items are most frequently requested: Heavy work socks and foam

insoles for combat boots; tire patching kits for repair of boots, ponches and rubber mattresses; plastic containers for powdered drinks; instant breakfast drinks; insect repellent; Q-tips; blank assorted greeting cards; fruitcake, candy, nuts, gum; pre-recorded music tapes; halibut pens.

Canned foods—meat, fruits, juices, shake-a-pudding; camera film; small mirrors; foot spray; medicated cleansing cream; first aid kits; medical scrub brushes; 9-volt radio batteries; postcards of scenic landscapes; self-sealing envelopes; one-inch paint brushes, used to clean the M-16 rifle; an "photo-cop" of girls—possibly the most requested item of all, Uram said.

Today's "Yule Mail Call" is the 12th list of names and addresses of Quad-City servicemen and women to be published since the project began Oct. 3, after the pre-Christmas service for the third year.

Local residents are invited to submit the names and addresses of military personnel serving at home or overseas to the Press-Record for inclusion in future issues. It is suggested that readers clip-out and retain the lists as they appear, adding the servicemen to their individual Christmas lists.

Those submitting names and addresses of Armed Forces personnel are asked to send in the information by letter or postal card, or bring the written details to the Press-Record, 1817 Delmar avenue.

To ensure proper delivery, it is important to accurately submit the names and addresses, including APO and FPO number when appropriate. The address service will be included in parentheses following the address, if noted by the sender.

## Press-Record's . . .

### Yule Mail Call (Clip and Save)

Quad-City servicemen and women stationed around the world, whose names and addresses are being published in this issue of the Press-Record as a special pre-Christmas public service. It is suggested that readers clip-out and retain the lists as they appear. Local residents are invited to include the servicemen on their Christmas mailing list and send greeting cards, letters or packages, thereby helping to brighten the coming holiday season for military personnel who are away from their homes and families. Early mailing is recommended.

Arrangements are being made to meet Santa at the McKinley bridge at 9 a.m. for a parade, with stops in Venice and Madison and Granite City before going to his log cabin in Civic Park on Niedringhaus avenue.

Accompanying Santa will be two of his elves and Miss Letitia Marmion (Miss Granite City), riding in open cars with other welcoming officials.

At the conclusion of the parade, Santa will talk with the boys and girls at his cabin where they may give their Christmas orders.

## Job Preference For Veterans of Vietnam Urged

Veterans are returning to civilian life at a rate of 70,000 a month, Madison Amvets Post 204 pointed out this week in a statement urging that Vietnam war veterans be given high priority by prospective employers.

Commander Stanley Krakowski and Vasil Gravelle, public relations officer, said Post 204 has gone on record as noting that "members of the armed forces have been making great personal sacrifices to defend freedom and bring jus-

tice and peace to the world. Veterans are generally mature, trained, knowledgeable, conscientious, dependable men with strong desire to begin their careers, establish households and settle down to raise families.

"One of their most immediate and acute needs upon discharge is to obtain early and suitable employment in positions enabling them to be self-reliant and which provide meaning, purpose and fulfillment in their lives. They need priority because

they are at a disadvantage due to their absence from their community in recent months and years," the Post 204 resolution adds.

The Amvets report that President Johnson believes veterans "merit the special consideration of the private employer." Both houses of Congress have taken a similar stand.

## Venice Students Prefer Humphrey For President

By SUSAN STERN

On the day of the national election, the students at Venice high school held their own election. Three students represented the three national candidates for president and gave supporting speeches.

**STUFF OVER PRECINCT VOTES STILL PENDING**  
To the Editor:  
There have been several articles explaining what would happen if a miscount of ballots was detected in the election polls. What they failed to tell me was: How do you accomplish the remedy?

It is old news to many that the June 11 election for the office of Democratic committee-man in Namekitt township Precinct One is in the courts because of a miscount of the ballots at the polls.

I was declared to have lost 282 to 277, but the Madison county election canvass board showed that I polled 300 votes to my opponent's 289. Several ballots were marked over the legal pencil vote with a ball-point pen. I saw them myself.

Using this to establish a record, I filed suit thinking the vote of the public is what counts, but this has been proven to be a legend.

My case came up before Judge Meyer but he had ruled to count the ballots in another case, so they promptly had it changed to another court.

I was then informed that my petition was dismissed by Judge Strepper in Madison county court on technicalities and now it is to a higher court, which would give Mr. Rutherford another few months in my office to extend the now existing five-months.

This is another action to remove the memory from the minds of the voters by stretching out time—not to mention the expense I must carry.

Mr. Rutherford has resumed his office while many of us know that he did not receive the most votes. I wonder how many other candidates are beaten by miscount?

The office of precinct committee-man is secondary to the issue of justice. The term is for two years and it could be in the courts for the full term, but I owe an allegiance to the people of this precinct to fight this type of leadership, which is the very reason I became involved.

There are too many good people out here for me to throw up my hands and say, "I will continue to fight for our votes right down to the wire."

**FIRMS URGED TO HIRE PHYSICALLY HANDICAPPED**  
To the Editor:  
I would like to speak out for the physically handicapped. I am a physically handicapped person and I do not want to be given a very good chance.

I have been out of school for over a year now, and I still haven't got a job. I got my high school diploma, but it doesn't seem to be doing any good.

We even have a lot of people campaigning for us, but nobody seems to be paying any attention. I think it's time that somebody should start giving us a chance; that's all we need, a chance.

If we get that chance we will

prove we can do the work. So, say to the big businessman, please give us a chance. I guarantee that you will never regret it.

**VIETNAM VIEW: BOMB HALT JEOPARDIZES LIVES**  
To the Editor:  
I don't know if this letter is of any importance to you, but it means very much to me. I'm serving 12 months in Vietnam with the U. S. Army.

I'm stationed in Tay Ninh base camp. Not too long ago, this was one of the hottest spots in Vietnam; things have quieted down now.

On the news I heard that the bombing in Vietnam. I don't know if this has gotten out to the people in the states yet, but there is a lot that doesn't get to the states.

In my opinion, these politicians are making a great mistake. I'm only a private first-class, so my opinion doesn't go very far in the Army.

All the politicians and people are accomplishing is just giving "Charlie" (Viet Cong) a chance to regroup, gather more supplies and try to walk right over everyone in Vietnam.

These bombs were helping to save my life and many others. I have always been convinced that I have the right of freedom of speech. For the first time I have exercised my freedom of speech, and think others should do the same.

I hope the people in the U. S. wake up and realize what they are doing. I might be right or wrong; everyone has his own opinion, and this is mine.

I think I know what I'm talking about. I'm the one who is in Vietnam. Let some of the politicians spend six months here and see if they say, "Halt the bombing."

I would like to hear someone's opinion who is in the states.

**OBSERVED WONDERFUL CHILDREN ON HALLOWEEN**  
To the Editor:  
I read two letters in the Forum Nov. 7 in which a man and woman had harsh things to say about the kids who were out on Halloween.

I had about 50 children who visited me on the evenings of Oct. 30 and 31. I don't think any came back the second time except one boy who brought a small child with him the second time. He told me he had been before but that the small one had not, so I "treated" him, too.

There was some collecting for the United Children's Fund. I also "treated" two small boys and two small girls who came in and said someone had strung paper on my hedge but they had taken it off and crammed it into their bags. I never had any windows soaped.

I think there surely must be some pretty wonderful kids in this generation.

LOGAN AVENUE WOMAN

## 50 YEARS AGO

NOVEMBER 14, 1918

Celebration of the signing of the armistice continued here well past midnight. At one point, false rumors were circulating that the Kaiser had committed suicide.

The day was a festive one. In the exuberance, a group of American Car & Foundry Co. employees on their way from Madison to celebrate rolled a large car wheel to Granite City, later rolling it back to the plant.

Before 8 a.m., police notified hardware stores not to sell any more ammunition, and shortly after 9 a.m. the order went forth to close Granite City saloons. Bars in Madison and Venice were closed later in the day as crowds there became unruly.

Other than one or two major accidents, the day passed with nothing serious occurring to mar the pleasure of the celebration. Tubs, pans, dishes, buckets, skillets and other kitchen utensils were beaten into shapeless masses in creating noise for the observance. The Granite City and Lincoln Place bands played martial and victory music.

Small, impromptu parades kept growing and merging until finally there were three or four big parades, followed by a single parade which went to First street, Madison, and returned to the Granite City post office.

After band selections, Postmaster Champion called for cheers for avenue he was to lead. Mr. Sam Major, costumed as Joan of Arc, rode a horse up the Elks Club steps and formed a tableau by holding a sword aloft and posing between old Glory and the French tricolor.

All present and future draft calls have been canceled by Provost Marshal General Crowder. A group from this district was stopped and sent home Nov. 11 just as it was about to board a train to report to Camp Wadsworth, Spangsbarn, S. C.

With the lifting of the ban on meetings due to the Spanish influenza epidemic, the Washington and Princess theatres reopened, ice cream parlors resumed business and Wednesday night prayer meetings were held in all churches, which will resume regular services this weekend. Schools will start Nov. 18 after being closed more than a month. Several postponed dances are being rescheduled. The death toll here from the epidemic and from pneumonia was severe.

F. A. Garesche (D), state representative, and the entire Republican ticket were elected, including Congressman W. A. Roderberg. State Senator J. G. Bardill, Representatives N. G. Flagg and Chris Rehmer, Sheriff George E. Lippert, Probate Judge G. W. Crossman and Probate Clerk J. B. Coppinger.

### Urgent That Freeze On Federally-Aided Road Construction Projects Be Ended

Direction of the Illinois and U. S. Highway Bureau will change hands in December and January. One of the most constructive steps that could be taken would be elimination of the freeze on state-coordinated, federally-aided road projects in this region, already in effect for more than four months.

Ideally, the thaw could include the original objective of a broader base for hiring of construction workers. But this goal also could be pursued in other ways, using other methods.

It seems inappropriate to us to penalize the public as a whole for the inconvenience, injured or killed on bad highways come from all walks of life—highway workers, those who would like to obtain highway jobs, and all other kinds of Americans.

And there can be no doubt that a halt in highway building means bad roads. Their poor condition was a major issue in the 1968 state election, and all candidates and officials agreed that among the chief highway needs is a big injection of state and federal tax money.

The fund freeze has created a critical problem for motorists, pedestrians and taxpayers. Unions and contractors should do all in their power to end it immediately; if they fail, we feel federal authorities should adopt a different approach.

**New Draft of State Constitution Should Include Simpler City, County Services**

The Illinois AFL-CIO fought the constitutional convention-proposal on the ground that the new state constitution might be worse than the one in use since 1870. They may be right, but we are sure that both labor leaders and the public are hopeful that an improved document will be written, now that voters apparently have given the task a "green light."

The challenge of writing a better Illinois government framework is heightened by the fact that the new constitution hopes to vest more power and duties at the state, county and municipal levels.

It will be particularly important that those drafting a new state constitution take into account the needs of cities and counties provide services. Present taxing agencies are creatures of the state, rather than exercising true home rule.

Whether a new constitution eventually wins voter approval will depend to some extent on the preliminary procedures set up in the next legislative session, including the way in which the 116 delegates are elected. We hope the General Assembly does a good job.

**How Nixon Would Use Wiretap Law to Curb Organized Crime; Wealthy Gang Syndicate a Menace to All**

By PRESIDENT-ELECT RICHARD M. NIXON

Organized crime is the tapeworm of the American society. In recent years it has prospered as never before and has broadened its influence in government and legitimate business and industry. There has been an inadequate response by government at the national level to this national threat.

One of the most effective groups of men within government combating this kind of criminal activity over the years has been the Organized Crime Section of the Department of Justice.

Yet, when President Johnson took office, the number of man-days spent in field investigations by members of the OCS, the number of man-days spent testifying before grand juries, and the number of arrests recommended suddenly decreased between 50% and 75%.

This wholesale de-escalation of the Justice Department's war against organized crime has not to this day been adequately explained.

Equally puzzling was the administration's adamant opposition to the use of the same wiretap and electronic surveillance the government employs to safeguard the national security.

Not only did it oppose the use of these weapons against crime, it asked Congress to forbid that use by law. Such legislation would be a tragic mistake. Organized crime is a secret society.

By denying to state and federal law enforcement agencies the tools to penetrate the secret society, the President and the Attorney General are unwittingly guaranteeing the leaders of organized crime a safe haven, sanctuary from which to pro-

ceed with the systematic corruption of American society. New York County District Attorney Frank Hogan, who has probably convicted more racketeers than any other man in America, has said that wiretapping is:

"The single most valuable weapon law enforcement's fight against organized crime... Without it, my own office could not have convicted Charles 'Lucky' Luciano, Jimmy Hines, Louis 'Lepke' Buchalter, Jacob 'Gurrah' Shapiro, Joseph 'Scottie' Lanza, George 'Boss' Frank, John 'Dio' DiGuardi and Frank Carbo."

An overwhelming majority of the President's own blue ribbon committee on organized crime recommended enabling legislation for the use of wiretap.

The Judicial Conference, consisting of ranking federal judges from across the nation, and headed by Chief Justice Earl Warren, has approved such legislation.

And the Supreme Court has left the door open to a carefully drawn wiretap measure with proper safeguards.

The Senate has been considering such a proposal—drawn to conform meticulously to the Supreme Court decisions. That proposal would authorize the use of electronic surveillance on a court order, in the nature of a search warrant, society.

The court order would be limited to major crime cases, the tools to penetrate the secret society, the President and the Attorney General are unwittingly guaranteeing the leaders of organized crime a safe haven, sanctuary from which to pro-

### Handicapped Can Be Capable Employees

As noted in a letter in The Forum today, there are many handicapped people, rehabilitated and trained for work, still waiting for a chance to prove their worth.

Part of the problem, national studies have shown, stems from three false but persistent myths: that handicapped workers are more likely to have accidents than other employees, that an employer's workmen's compensation rate will rise if he hires a handicapped worker, and that insurance companies will not permit client firms to employ handicapped workers.

U. S. Labor Department surveys disclose that the handicapped have fewer disabling injuries than the average worker exposed to the same work hazards. When placed in suitable jobs, they are, for all practical purposes, no longer handicapped. As to insurance companies' positions on such hiring, insurers themselves are among the leaders in rehabilitation and placement of impaired workers.

A final noteworthy point is that the hiring process requires no exceptional qualifications of the employer and no special combination of time, place or circumstances. The pertinent question, as in other hiring, remains: "Can the worker do the job?"

### Labor Temple Still in Need of Tenant

The Labor Temple Association is in need of a tenant for its 60x125-foot main floor, a heated, air-conditioned and well-lighted office suite which includes a vault, conference room and storage sections. Its floor and walls are colorful and modern, and there are many attractive partitions. It has housed the Granite City school district office, which is to be moved.

All utilities and electric are paid for by the Labor Temple, which is willing to negotiate a reasonable monthly lease price and could also make the basement of the soundly-constructed building available if desired.

The fund is needed to help continue maintenance of the structure, which provides offices and meeting halls for union organizations and the public. In view of the long and useful history of the Labor Temple, the widespread hope that an occupant can be found early in 1969.

### Most Youths Responsible, Idealistic

With G. H. Sternberg of Granite City the 1968-69 president of Optimist International, there is increased local interest in Youth Appreciation Week Nov. 11-17 and in the positive approach which Optimists take toward the younger generation.

Despite the alienated few whose conduct frequently is disturbing, the dominant trend is encouraging because youths are channeling their vigor and enthusiasm toward the solution of national and world problems.

And there can be no doubt that a halt in highway building means bad roads. Their poor condition was a major issue in the 1968 state election, and all candidates and officials agreed that among the chief highway needs is a big injection of state and federal tax money.

### Consumer Prices Up 4.4% in Year

(Bureau of Labor Statistics)

The consumer price index for September showed the smallest increase in a year, a survey completed this week shows. The index rose 0.2% to 122.2, from 1957-58 prices considered 100.

The rise was mainly due to higher apparel prices and seasonal price changes. Food prices declined for the first time this year, although the decrease was less than expected seasonally. New car prices also fell less than usual for September.

Over the past year, the consumer price index has climbed 4.4%.

The wholesale price index rose 0.4% in September, following a decline of the same amount in August. Industrial commodities showed their broadest advance since April for an average increase of 0.3%.

Farm products and foods were up 0.8% after declining in August. At 109.1, the wholesale price index was 2.7% above its level of a year ago.

Preliminary data for October indicates that the wholesale price index rose 0.4% from September. From September, farm products and foods declined, but industrial commodities advanced by 0.4%, principally due to introduction of 1969 models of new cars at higher prices.

All 16,000 workers will receive pay adjustments as the result of increases in national and city indexes for September. About 10,000 will get a three-cent hourly raise based on the advance in the national index since June. Other increases will range from two to seven cents.

## Local Pastor Learns of Taboos in Ghana

It pays to become familiar with local customs and taboos before participating in ceremonies abroad, no matter how informal the occasion, and also to have a fast developing camera on hand, Rev. William J. Richardson, superintendent of missions for the Madison County Baptist Association, discovered during a recent trip to Ghana in West Africa.

The Baptist minister and his wife, who reside at 620 Engineer road, Mitchell, recently returned from a three-week mission inspection tour in Ghana, where Rev. Richardson also conducted a week-long revival at the Nalerigu Baptist Church, located deep in the heart of the Ghanaian bush country.

In addition, the local couple visited with their physician son and family, Dr. and Mrs. William D. Richardson and children Sharon, ten years, Donald eight, and Marilyn, who was born in Ghana on July 4, 1963.

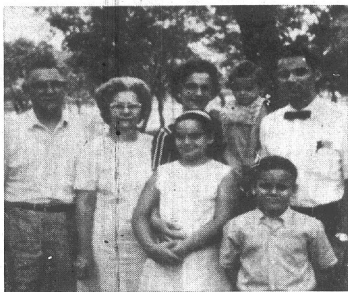

Dr. Richardson, an internal medicine specialist and surgeon, is in charge of the Baptist Medical Center at Nalerigu, one of several mission hospitals and schools in Ghana supported by the Foreign Mission Board of the Southern Baptist Convention.

Experience with Chieftain  
Relating several experiences he encountered in Ghana, Rev. Richardson described one ceremony in which he presented a large Bible to a native Nyeri, a regional chieftain.

"Fortunately, my son advised me beforehand to offer the Bible with my right hand, as to present the gift with my left hand would deeply insult and offend the chief and may have resulted in problems."

"Following the presentation, we were taking photographs and the native leader insisted on seeing the picture immediately," the minister continued. "My camera is not the instant developing type. However, my son once again came to the rescue with his Polaroid camera and we were able to show the Nyeri his photograph right away."

"Everywhere you travel in Ghana, if you are carrying a camera, the children and adults want their picture taken and follow you around, saying 'photo, photo,'" Rev. Richardson added. "Even if they are unable to say anything else in English, it

seems that everyone can repeat the phrase, 'photo, photo' over and over again."

The mission superintendent was successful in taking between 200 and 400 colored slides during the trip and currently is showing the collection at various area churches.

### Slide Presentations

This Sunday evening, Rev. Richardson will conduct a special program at Picketon Baptist Church and on Sunday, Nov. 24, will repeat the program in the afternoon and evening at the First Baptist Church in Granite City. Other film shows are planned for the immediate future in Bethalto and Collinsville.

"We had good crowds each day at the Nalerigu revival and the people of Ghana, whether Christian, Muslim or pagan, are very receptive," the Baptist preacher commented.

The Nalerigu Medical Center is located about 200 miles inland from the coast in the Upper Volta region. Rev. Richardson reported the center has excellent laboratory facilities, one of the best in Ghana, a leper colony and a TB health center.

"Ordinarily, there are two doctors on duty there, sometimes three, and they certainly

## No Plans Yet By New Owners of Mosenstien Is.

No plans have been made for Mosenstien Island by the new owners—the Mosenstien Land Trust—whose members also own Gabaret Island on the west side of the Chain of Rocks canal below Chouteau Island.

Charles Boesel, an official of the Mosenstien Land Trust, told the Press-Record that so far the purchase has been made purely for investment purposes and no plans for future use have been made. "I don't know when any such decision will be made," he added.

The island recently was closed to hunters. The wooded uninhabited island lies below the Chain of Rocks low water dam in the Mississippi River and is closer to the Illinois side. It is about four miles long and 1½ mile wide.

In post-war years, there have been many rumors as to its possible use. The Lincoln Athletic Club here wanted to develop it as a "Coney Island" and several promoters also have wanted to develop it as an amusement park and recreation area.

The city of St. Louis has considered it for an airport site, and the St. Louis Plan Commission has envisioned its development with nature trails, a golf course and the use of the sand beaches for sunbathing, picnicking and camping.

Most of the plans have been abandoned, since the island floods and dikes would have to be built.

The island was first acquired by the Niedringhaus Trusts back in the 1880s when Granite City was being developed.

W. Delafield Niedringhaus of St. Louis told the Press-Record that he has no record of the exact date or the reason for the purchase of the island.

The recent sale was at an undisclosed price, and Boesel declined to name the new owners.

## Forms are Available to Register War Trophies

Detailed procedures for registering machine gun, sawed-off rifle, silencer, deactivated war trophy and other destructive devices were announced today by Jay C. Philpott, district director of Internal Revenue for central and southern Illinois.

The Gun Control Act of 1968 requires that weapons and devices of this type must be registered with the Internal Revenue Service by Dec. 1, 1968.

Philpott said copies of registration Form 4467 are available at Alcoholic and Tobacco Tax and other IRS offices.

The forms are prepared in three copies, two of which should be mailed to the Director, Alcoholic and Tobacco Tax Division, Internal Revenue Services, Washington, D.C. 2024. The third copy may be kept by the owner of the firearm or destructive device.

"Firearms or destructive devices should not be brought to an IRS office to be registered," Philpott stressed.

Under the new law, all firearms and destructive devices requiring registration must be identified by a serial number. If a firearm or device does not have a serial number, the owner should phone, visit or write the nearest IRS Alcoholic and Tobacco Tax office and a number will be assigned.

After obtaining the number, the owner is responsible for affixing it to the firearm or device before completing the registration form. Additional information may be obtained by contacting the nearest Alcoholic and Tobacco Tax or other IRS office.

## Area Leaders to Outline 9-Point Industrial Plan

Details of a nine-point unified plan to implement efforts for industrial expansion in the Illinois-Missouri Metropolitan region will be outlined by civic, business and industrial executives next Monday night at a "VIP" reception in the University Center at Southern Illinois University-Southwestern Campus.

The plan has been developed by the Regional Industrial Development Corporation for the bi-state metropolitan area and is designed to give direction and strength to RIDC planning in its program to bring new industry to the area and expand existing industrial operations. The area served by RIDC includes Madison, St. Clair and Monroe counties in Illinois and St. Louis and St. Charles, Jefferson, Franklin and St. Louis counties in Missouri.

Dr. Delyte Morris, president of SIU who this week was elected as chairman of RIDC's board of directors, said both governors-elect of Illinois and Missouri have been invited to the reception. The reception will begin at 8 p.m.

Among those discussing the RIDC goals will be William F. Hoelscher, manager of the Manufacturers Association of the Tri-Cities; David H. Hunsom, director of industrial development of East St. Louis; Andrew H. Bauer, president of industrial Properties, Inc.; Harold Fischer, chairman of the board of the First Granite City National Bank; Henry McAdams, business manager of the Alton Evening Telegraph; Raymond Rogers, mayor of Edwardsville; Oscar Edwards, president of the St. Louis Labor Council; Gene Walla, president of Teamsters Local 682, and D. Reid Ross, executive vice-president of RIDC.

Proposals Outlined

The proposals, outlined briefly at the RIDC annual meeting, include:

Research to identify business opportunities for new firms, new business possibilities for existing firms and the impediments to growth.

Additional jobs for unskilled workers.

Creation of a pool of risk capital to be used as seed money to encourage local, science-oriented industry. Venture Capital, Inc., has been proposed to meet this need.

Improved terminal and transportation facilities.

Improving the total environment such as schools, recreation, cultural and other activities.

Improving the region's image.

Greater cooperation among local governments to increase governmental efficiency.

Labor training and retraining programs to increase the flexibility of the work force and to make it more responsive to technological change.

Labor management stability to encourage industrial growth.

Rev. Baugh to Speak At Madison Methodist

Rev. John Baugh, formerly of East St. Louis and East Alton, will be guest minister for the "four nights for Christ," beginning Sunday, Nov. 17 and continuing through Wednesday, Nov. 20, at the Madison United Methodist Church, Fifth street and Ewing avenue.

Services of song, prayer, message and dialogue will begin at 7:30 each evening and persons of all ages are invited to attend. There will be child facilities for pre-school aged children.

The general theme will be "The Word of Our Lord" with emphasis on words spoken by Christ.

Rev. Baugh was pastor of St. Paul's Methodist Church in East Alton from 1954-62 when he moved to his present pastorate, the First United Methodist Church in Metropolis, Ill. He is a graduate of McKendree College and Emory University, Candler School of Theology, Atlanta, Ga. He is presently chairman of the Southern Illinois Conference World Service and Finance Commission of the United Methodist Church, and a trustee of the Voigt Lecture-ship held yearly at McKendree College. He was also a member of the board of trustees at McKendree until this year.

The song leader of the four nights will be William Patterson of Collinsville.

Two Deputies Suspended For Bypassing Accident

Two night riders have been suspended for a week without pay by Madison county Sheriff George Musso for failure to stop their patrol car at the scene of an injury accident while transporting a prisoner.

They are Randall Robbs of Worden and Eugene H. Vourmand of Alton. Musso said one of them should have offered assistance at the accident scene while the other guarded the prisoner. A victim of the accident, which occurred northwest of Edwardsville complained to the sheriff.

## Elementary Education Meet Set at SIU-SW

Elementary education teams are being invited to a special conference at Southern Illinois University-Southwestern Campus Friday.

The day-long program in the Communications Building will present material on the multi-unit elementary school and how innovative programs may be incorporated into such a school.

Guest speaker will be James E. Walter of the Wisconsin Research and Development Center for Cognitive Learning, the University of Wisconsin.

He, along with several other educators, has developed a plan of organizing the elementary school into teaching and research units. The objective of the program, now operated in seven pilot schools, is to allow schools to adapt new teaching and classroom innovations without having to continually reorganize the basic structure of the school.

Walter will use selected videotapes in his presentation to area educators.

Initial sponsors of the Nov. 15 meeting are two departments from the state Office of the Superintendent of Public Instruction. They are: Division of Instruction, Department of Curriculum Development; and Division of Planning and Development, Department of Educational Research.

Joining in the sponsorship of this program are the Southwestern Division of the Illinois Association for Supervision and Curriculum Development (ASCD) and the Education Division of the Southern Illinois.

He points out that ideally schools should use the team approach to attending the conference. Suggested as a team are the school administrator, elementary principal, curriculum coordinator and a classroom teacher.

The hospital received two wagons which are used to take children to the x-ray department and other areas of the hospital.

Tire, Wheel Stolen

Steve Kaman, 1201 Washington avenue, Madison, reported to Madison police Monday that a tire and wheel were stolen from his truck parked in his yard. The stolen items were valued at \$50, police reported.

## Housing Board Approves New Community Plan

Granite City Housing Authority commissioners at their November meeting Tuesday night approved the revised Granite City master plan as a guideline for future community growth and facilities.

A low bid of \$16,935 from the Ed Moore Construction Co. on creating a 30,000-square-foot parking lot at Nameoki road and Palmer avenue was accepted.

The work includes removing three vacant homes on the L-shaped site, grading and installing crushed rock. Pouring of a blacktop surface may be delayed until next spring due to weather conditions.

The parking lot will accommodate 80 to 85 autos, about the

number of spaces lost when southern Nameoki road was widened this year and a parking lane was eliminated along the Kirkpatrick Homes housing project.

Other bidders were A. H. Seebold \$17,845, M. J. H. Wolfe \$19,574, G. H. Sternberg \$18,736, Henry Ross \$20,650 and Leo Wolf \$24,180.

Liability insurance during the next three years on all Housing Authority property was awarded to the Kemper Agency of Chicago on its low bid of \$375, subject to approval by the regional housing office. Fouch-Webb of Wood River bid \$450, Kuegel Agency of Granite City \$588 and Ringwil of Belleville \$12,390.

Appropriations for managerial expenses during the coming year were authorized.

Commissioner Walter Pfaff presided and Executive Director David Morgan reviewed a southern Illinois conference held on park district services to the elderly.

The next board meeting was set for Dec. 10.

Attempted Car Theft

Eddie Lane, 2215 Nevada street, notified police at 4:30 p.m. Monday, that someone had tried to enter his parked auto the previous night by punching a hole in the left vent window and attempting to pry open the window to hook the inside door handle with a wire loop.

## Gateway Council Adopts \$927,589 Budget for 1969

The East-West Gateway Coordinating Council will operate during the 1968-69 year with a budget of \$927,589 that will include federal aid of only \$382,000, according to budget figures adopted by the council in its annual meeting.

The council is anticipating revenue of about \$736,000 from all sources, including federal aid and contributions by participating agencies, but a balance of \$300,000 from the old budget will permit the council to operate in the black, Eugene Moody, executive director of the Gateway Council, told board members.

Originally the council planned a budget of approximately \$1.2 million which was based on a federal grant request for \$870,000. The government, however, cut this request to an actual grant of \$216,000, a move that Gateway Council members said would put the organization "out of business."

Subsequent meetings were held in Washington with officials of the Housing and Urban Development Agency, who agreed to upgrade the grant to \$408,000, figure that was cut again to \$382,000 by HUD revisions of the grant.

**Local Units Contribute**  
Local governments will contribute \$106,000 toward the new budget on the basis of a 5% per capita contribution from all communities served by the body. The State of Illinois will contribute \$80,000 and the State of Missouri \$25,000. The Southwestern Illinois Metropolitan Area Planning Commission will contribute \$40,067 and the St. Louis City Airport Commission

**FAIR SHARE PLAQUE**, awarded to Union Division—Miles Laboratories Inc., whose employees exceeded "fair share contributions" to the current United Fund appeal, is accepted by Bill Moore, Oil, Chemical & Atomic Workers, Local 7-663 (second from left), from Miss Letta Marmion—Miss Granite City. Other firm representatives participating in the ceremony are John Combs, supervisory personnel (left); Wayne Mosby, Local 7-663, next to Miss GC; and John Bennett, supervisor, hourly personnel.

will contribute \$16,000 to be used for an airport study.

Frederic M. Peirce, president of Civic Progress, Inc. in St. Louis and principal speaker at the council's annual meeting, urged area leaders to act as quickly as possible to complete a rapid transit survey which can be submitted to the public not later than 1971.

Peirce told the group that the longer the metropolitan area waits to build a transit system, the more the taxpayers will have to pay because of rising construction costs.

He referred to a recent report that a rapid transit system to serve the Illinois-Missouri metropolitan region is at least 12 to 14 years away, and said that a transit system "that far off is not worth telling us about . . . by the time it gets here, our traffic problems will have doubled or tripled."

Peirce, who is president of General American Life Insurance Co., called upon the coordinating council and the Bi-State Development Agency which are sponsoring the present survey, to keep up with

their timetable so that a well-devised transit plan can be completed and ready for submission to the public by some time in 1970, or at the latest in 1971.

**Can Plan Too Much**  
He quoted Paul A. Siton, urban mass transportation administrator, as telling members of Civic Progress, Inc., recently that "cities can do too much planning and studying for an optimum rapid transit system, but the important thing is to get moving on construction."

"Of one thing there is no doubt," Peirce said. "The longer we in the area wait, the more we will pay for rapid transit in the end. The cost of construction of the 75-mile rail rapid transit system in San Francisco was escalated more than \$150 million since the project got under way."

He said that he is not calling for "instant rapid transit. I realize that the development of detailed engineering and feasibility plans for a grade-separated, high-quality rapid transit system is some time away. However, I have discussed the situation with other businessmen who have been following the rapid-transit study and they hope, as do I, that the East-West Gateway Council and Bi-State Development Agency can stay within their original timetable."

### Equipment Damaged at Drainage Line Project

Installation of drainage pipe in an area near the northwest corner of the Kirkpatrick Homes will be halted for an indefinite period due to extensive damage of a large piece of construction equipment during the three-day holiday weekend. Oscar Waltz, a maintenance mechanic for S. M. Wilson Construction Co., notified police at 8:30 a.m. Tuesday, that a fuse flare had been used to burn the engine and instrument wiring of an American back-hoe, a large machine used in excavation work.

He also reported all instrument gauges on the back-hoe were damaged and the vandals had dumped material into the engine crankcase, removed the oil filter cap, smashed the front windows and door glass from the cab and knocked out glass in the boom crane. Construction at the project will be halted until repairs to the equipment are made, Waltz said.

## Plan Commission To Act Today on Development Plan

The Granite City Plan Commission is to meet this afternoon in city hall to act upon recommendations concerning the "new long-range comprehensive development program which eventually must be adopted by the city council to give it legal status."

A public hearing on the plan, proposing a 20-year span of development in Granite City and an area one and a half miles outside the city's present boundaries, was held Oct. 16. No objections were filed at that time and acceptance of the development guide was expressed by the city's major tax agencies.

Procedure calls for approval or rejection of the program by the Plan Commission and recommendations by the commission to the city council for its adoption or rejection. The Plan Commission is expected to recommend to the council that it adopt the plan at the earliest possible time.

### To File With County

Once it is given approval by city council members, the plan may be filed with the county clerk's office at Edwardsville. Under Illinois law the filing of the plan with the county gives the plan a legal status that would prevent the county from carrying out any development not in conformance with the plan recommendations in the area extending one and a half miles outside the city's present limits.

The program was developed in a two-year study by the Southwestern Illinois Metropolitan Area Planning Commission and sets up guidelines for future projects undertaken by public agencies.

A new zoning ordinance and a new subdivision land ordinance also have been prepared and will be outlined at a public hearing that will be scheduled after the development program is adopted by the city.

## Income Tax Booklets To Be Issued Dec. 15

The price of "Your Federal Income Tax," also known as Publication 17, and "Tax Guide for Small Business," Publication 334, has increased this year from 50 to 60 cents, Jay G. Philpott, district director of Internal Revenue for central and southern Illinois, said this week.

The booklet, "Your Federal Income Tax," explaining in non-technical language our federal tax laws as they pertain to individuals and the interpretations of those laws by IRS, Philpott said.

The material is regarded as especially helpful to taxpayers who have unusual tax situations, or those faced with a new tax problem for the first time.

Philpott said, "Self-employed persons and other business taxpayers will find the 'Tax Guide for Small Business' helpful in answering income and employment tax questions regarding sole proprietorships, partnerships and corporations."

Both publications will be available on or about Dec. 15. Mail orders should be sent to either Blank Forms, Post Office Box 1468, Springfield, Ill. 62765, or to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

A check, draft or money order must accompany the request.
